Skills

Tech Stack

Design Tools

Working Experience

Web Developer

Fulltime

October 2023 - Now

As a Fullstack Web Developer at PT. Aera Projects, I am responsible for designing, developing, and maintaining web applications.

My current projects include:

- **Limon Cafe Website:** Developing a comprehensive website for Limon Cafe, equipped with a user-friendly interface, a dynamic content management system, and seamless integration with online ordering platforms.

Website Designer

Upwork as a Freelancer

June 2023 - Now

As a Web Designer, I am dedicated to creating visually stunning and user-friendly websites. With a keen eye for aesthetics and a deep understanding of design principles, I craft engaging layouts that leave a lasting impression. From concept to implementation, I collaborate with clients to bring their vision to life, ensuring a smooth and enjoyable user experience. As a professional in the field, I stay up-to-date with the latest trends and technologies to deliver cutting-edge designs that enhance brands and captivate audiences.

Frontend Developer

Fiverr Freelancer

February 2023 - Now

As a freelance Frontend Developer and UI/UX Designer on Fiverr, I bring creativity and technical expertise to every project. With a strong grasp of HTML, CSS, JavaScript, and UI/UX principles, I craft visually appealing websites with intuitive user interfaces. Client satisfaction is my top priority, and I pride myself on delivering high-quality solutions that exceed expectations.

UI/UX Designer

Tahoma Coffee - CV Digital Lontar Nusantara

December 2021 - April 2022

During my internship at Dlontar Nusantara, I gained valuable experience in web design. Collaborating with an experienced professional team, I was exposed to real-world projects and gained hands-on experience in creating visually appealing and functional websites. Throughout my internship, I collaborated on various aspects of the design process, from conceptualizing ideas to implementing responsive layouts and optimizing user experience.

Education

2020 - 2023

SMK TI Bali Global Denpasar

Rekayasa Perangkat Lunak

Activities and clubs: Robotics Club, Web Design Club, and I achieved 2nd place in the Udayana Invention Web Design Competition 2022.

At SMK TI Bali Global Denpasar, I developed as a Frontend Developer and UI/UX Designer. I honed my skills in HTML, CSS, and JavaScript. Additionally, I was introduced to Backend Development using PHP and MySQL, enabling me to create visually appealing websites with a strong focus on user experience and functionality.
